

It's not what you see ... It's what you don't see. Exposure to the sun and the environment can leave one with less-than-youthful skin. In any case, we are all aging and if you have been seeking a solution to combat the aging process, decide today how you are going to look tomorrow with our Zamá Beauty regimen, hailed as a revolutionary process.

Zamá is a collection of comprehensive skincare products with outstanding high-quality, natural, and organic cosmetic ingredients. Our proven polypeptide technology and the most powerful antioxidant ever - Glutathione - acts as a super defense against the visible signs of aging for noticeably firmer, lighter, smoother, and flawless-looking skin.

ZAMÁ gently removes dead skin cells and leaves the skin radiant. It also:

- Helps revive a dull complexion and produces lighter, glowing results.
- Tightens and shrinks skin pores and balances skin's pH.
- Assists with skin regeneration and intense hydration
- Boosts collagen production and helps restore elasticity and tone.
- Removes dark spots, acne marks, or age spots.
- Exfoliates and removes skin impurities, dirt and dead skin cells.
- Your skin is left pure, radiant, and glowing.

Zamá products are safe and effective; specially chosen, blended and manufactured under strict quality guidelines from our first class US FDA approved Laboratory.

Glutathione

"Glutathione is the body's master antioxidant and best kept secret to maintaining health." – Theodore Hersh, M.D., Harvard graduate, Professor of Medicine, Emeritus, Emory University.

Our products include this great product "Glutathione"

Glutathione is a small molecule made up of three amino acids, which exists in almost every cell of the body. The presence of Glutathione is required to maintain the normal function of the immune system. When Glutathione is taken orally it is involved in detoxification, it binds to toxins, such as heavy metals, solvents, and pesticides, and transforms them into a form that can be excreted in urine or bile. Glutathione is also an important antioxidant but the side effect is the great things it does for the skin including skin whitening.

Let us introduce our list of Zamá Beauty Products to YOU.

ZAMÁ 1500mg GLUTATHIONE SKIN WHITENING VITAMINS

Proven to restore the skin's brilliancy, glow and naturally brightened complexion in as little as 6 weeks of twice daily use. Gives you smooth, soft, luminous and translucent skin. Contains a blend of natural superantioxidants, amino acids, glutathione 1500mg, Vitamin C 500mg, Wolfberry Extract (Lycium chinense), Pine Bark extract, Quercetin, fish Collagen, MSM, and other key ingredients rich in bioflavonoids and phytochemical complexes. These ingredients help inhibit melanin synthesis, restore skin damage caused by UVA/UVB radiation, prevent acne and pimples, improve skin texture and tone, tighten skin pores, regularize sleeping habits, enhance metabolism for maintaining healthy weight. Also the ingredients contain bioflavonoids and phytochemicals that does not only promise a beautiful, healthy, and youthful skin, but a healthier body as well.

ZAMÁ SKIN LIGHTENING FACE CLEANSER

Penetrates the skin surface to help inhibit the melanin cells, unclog the pores, kill acne-causing bacteria and shrink the pores. This nourishing facial cream cleanser helps sweep away dulling dirt, oil, and residue, as well as calming and brightening the skin. With calming marine ingredients, even the most distressed and dehydrated skin will find relief. Contains ginseng extract that purifies the skin eliminating toxins that may cause skin breakout and increase energy. Algae extract firms and tightens the skin. As you cleanse, you will notice instant results of new skin seen immediately after cleansing. Contains ingredients such as Glutathione, MSM, Retinoic acid, Giga white, alpha and beta Arbutin with triglyceride

ZAMÁ SKIN LIGHTENING DAY CREAM

Our Zamá skin lightening day cream is a soothing, moisturizer with SPF 30. Formulated to safely clear away blemishes. This mega strength lightening cream is a super concentrated cream that has been carefully developed to provide maximum benefit but is gentle to the skin and leaves skin feeling softer and more vibrant.

ZAMÁ SKIN LIGHTENING NIGHT CREAM

This mega strength lightening cream is also a super concentrated cream that has been carefully developed to provide maximum benefit but is gentle to the skin and leaves skin feeling softer and more vibrant. As a dark spot remover, it penetrates deeply into your skin. It's unique skin-lightening formulation with pure plant Arbutin and Kojic Acid works very quickly to lighten your complexion while other products dramatically smoothes and softens to produce the sheen and glow your skin deserves. Alpha Arbutin is an extract of the Bearberry plant. It is a natural double-whitening agent that inhibits the skin's Tyrosinase activity to decrease the formation of melanin and to even out brown spots and skin blemishes. Because of its gentle but intense formula, it is also recommended on other body parts like neck, underarm, bikini line and elbows.

ZAMÁ SKIN LIGHTENING BODY WASH

Zama skin purifying healthy body wash is refreshing body wash created with skin health in mind. It cleanses and conditions skin as a first step to whitening, while helping skin keep it essential nutrients. So your skin feels refreshed and looks radiant with health. This body wash gently cleans, exfoliates and removes skin impurities, dirt and dead skin cells, leaving your skin pure, radiant, and glowing. This invigorating wash comes in a cocoa butter and Shea butter soap base for long lasting moisturizing effect.

ZAMÁ SKIN WHITENING BODY WASH POWDER

Intensive Skin Whitening powder wash that clears all forms of stubborn or resistant discolorations and other epidermal dermatosis.

Not recommended for use in children under the age of 12. Contains maximum concentration of skin whitening agents in powder form with lauryl sulfate as a soap carrier. This soap gives you the added benefit of expediting the skin whitening process where bars and body washes fail to be successful. Guarantee result in 5 days of twice a day use

ZAMÁ SKIN LIGHTENING BODY LOTION

Zamá Skin Lightening Body Lotion leaves your body clear, brighter and dramatically smoother and softens to produce the sheen and glow your skin deserves. Ideal for age spots, fine lines and wrinkles, rough skin, skin laxity and redness, resistant hyperpigmentation. May be too strong for facial application. The effect is total body whitening in few days.

ZAMÁ HIGH POTENCY SKIN WHITENING OIL

This Oil product whitens the skin and not brightens. The effect is dramatic so if you are very dark skin, know that the effect may be very dramatic. Our lab guarantees result in 5 days of twice a day use of this regiment.

- Whitens the skin in as little as 5 days
- Firms and restore skin elasticity
- Fills fine line and laugh line with time
- Removes age spots and sun burns
- Softens old scars, cures acne and acne blackheads

ZAMÁ Anti-Aging PolyPeptides and Stem Cells

The research that started more than a decade ago finally turned to what is called a cosmetic breakthrough in the science of skin medicine, and in the history of cosmetic plastic surgery. ACETYL HEXAPEPTIDE, ACETYL GLUTAMYL OCTAPEPTIDE AND PALMITOYL PENTAPEPTIDE are the wonder peptides.

These peptides have been gaining attention within the cosmetic world for several years, and recently have been validated by many clinical trials as the active agent in promoting and speeding the healing of wounds, disappearance of deep wrinkles, and existing stretch marks, crows feet and UV damage. Many studies have been conducted on wrinkles, stretch marks and anti-aging products, but few had been successful in finding products which contained the essential active ingredients which work to restore the skin youthfulness. These peptides synergistically work by limiting the overproduction and release of neurochemicals or neurotransmitters that activates the over contraction of the facial muscles and reenergizing fibroblast cells. Reducing this over-contraction prevents wrinkling of the skin, and preserves the natural elasticity, and restoring the functionality of the fibroblast and GAGs helps in the healing process of damaged skin. These miracle peptides have no toxic effects because it is naturally derived. These powerful amino acids act by hooking the peptide chain to the fatty acid thereby making the skin very receptive to amino peptide absorption. Our laboratory bonded these peptides together and encapsulated the ends of these amino side chains with Lecithin lipid using Hylacross technology to further reduce to size to nano absorbable units to enhance cellular delivery of the peptides. These active polypeptides were brought together as a BOTOX ALTERNATIVE used today in wrinkle treatment. The good news is that few labs are up to date with this current breakthrough for people to obtain them at the affordable prices we offer.
